mind. body. spirit. heart. SOUL.

# EMPOWERING GIRLS TO LEAD WITH Confidence & Authenticity

## At Soul Models, our mission is simple and powerful:

Empowering girls to discover their authentic selves as they become mindful, confident, creative, and engaged leaders.

Every girl deserves a safe, supportive space to discover her authentic self. Soul Models provides an environment where girls are encouraged to speak up, stand tall, and shine, counteracting a world that often pushes them to conform, compare, and diminish themselves. With your help last year, So(ul) Powerful raised \$80,000, thank you so much for your contribution. *Please join us in reaching our six figure goal, this year.*

## Our Vision

Soul Models offers girls the opportunity to explore their authentic voice in a safe & supportive setting while being introduced to tools that will increase their self-confidence & resiliency. Through activity-based programming, we guide & support girls as they gain valuable life skills in the areas of creative expression, leadership development, stress-reduction techniques & an ethic of service. Our vision is that with these tools they will not only serve as role models in their community but continue to grow to become the confident, resilient, Soul Models of tomorrow.

## Our Approach: Fostering Growth and Empowerment

Soul Models equips girls with essential tools to navigate their world and become confident leaders:

- **Creative Expression:** We help girls find their voice through art, storytelling, and collaborative projects.
- **Leadership Development:** Girls learn to lead with empathy, courage, and integrity.
- **Emotional Resilience:** We teach stress-reduction techniques, mindfulness, and self-regulation tools to build inner strength.
- **Commitment to Service:** Girls understand the power of generosity and making a positive community impact.

# OUR CORE VALUES

REPRESENT A PILLAR. MODEL THE MISSION.

## Present Mind

**Cultivating focus, emotional awareness, and resilience in a fast-paced world.**

Soul Models teaches girls mindfulness practices and stress-reduction tools that help them pause, reflect, and respond with intention rather than reaction.

## Strong Body

**Building physical confidence, strength, and respect for the body.**

Through movement and wellness education, girls learn to honor their bodies as sources of strength and capability.

## Positive Spirit

**Fostering confidence, optimism, and emotional strength.**

We guide girls in building healthy self-esteem and navigating challenges with resilience and belief in themselves.

## Generous Heart

**Leading with compassion, service, and community impact.**

An ethic of service is woven into our programming, teaching girls that leadership includes lifting others.

## Nourished Soul

**Encouraging creativity, reflection, and authentic self-expression.**

Through art, storytelling, and creative exploration, girls connect deeply to who they are.

## Your Partnership Powers Possibility

Partnering with Soul Models directly fuels programming that equips girls with lifelong tools for confidence, creativity, leadership, and service.

**Together, we are nurturing the next generation of mindful, resilient leaders; Girls who will serve as role models not only today, but for years to come.**

# THE COLLABORATION COLLECTIVE

**CHAMPIONING GIRLS. MODELING PARTNERSHIP. LEADING TOGETHER.**

When girls see companies working together, across industries, perspectives, and strengths, they witness collaboration in action.

Together, we don't just fund programming. We model the future we want them to lead. At Soul Models, we teach girls that power comes from collaboration, not competition. Our programs model shared leadership, collective creativity, support over scarcity, and community over competition, a philosophy businesses can also embrace.

The Collaboration Collective unites mission-aligned companies to collectively support Soul Models' five core pillars. This tier reflects our values: organizations join forces, each representing a pillar, creating greater impact together than alone.

## **This level allows companies to:**

- Publicly align with a Soul Models core value.
- Stand alongside other purpose-driven businesses.
- Demonstrate a commitment to collaboration.
- Model the leadership philosophy we teach.

## **THE COLLABORATION COLLECTIVE | \$10,000 | 5 Available**
